

Nordtek

Engineering in a hyper
connected world

Inga Huld

University of Iceland

About me

- Applied Mathematics
 - Statistics
 - Machine Learning
- Employee at GRID
- Youth activist

Teaching method in a
hyper-connected world, post covid

What can we do now,
for the future?

Call from youth:
Access to education and
technology

Stepping away from
the traditional

An open university and lifelong learning

Open online courses

Collaboration with
university programs in
education

Team work

Mennt er máttur

Empowering youth with accessible
quality education in the hyper
connected world is the best thing we
can do now, for the future.
